

TEST YOUR CANNABIS-INFUSED BEVERAGES WITH ACCUSCIENCE LABS

CANNABIS & HEMP-INFUSED BEVERAGES FACE UNIQUE TESTING CHALLENGES

..... Cannabis and hemp-infused beverages have unique challenges, such as stability concerns and differences between the hot, cold brewed and un-brewed. In order to overcome these challenges and meet the quality, safety and efficacy requirements/regulations, manufacturers must rely on modern laboratories with robust methodologies, effective preparatory and advanced analytical technology utilizing state-of-the-art instrumentation.

Additionally, manufacturers must have access to an accredited laboratory that is willing to provide the required R& D for their specific product and/or developments.

The senior management at AccuScience Labs has a proven track record and over 100 years of combined analytical experience. We utilize the latest instrumentation, techniques and can support or collaborate with large-scale manufacturers to further contribute to the quality and consistency of the final product.

AccuScience Accurate. Legally Defensible Data.
