

ACCUSCIENCE LABS SURFACE, AIR TESTING AND VERIFICATION HELPS SCHOOLS & BUSINESSES IN FIGHT AGAINST COVID-19 SPREAD

SCHOOLS, HOTELS AND BUSINESSES ARE LOOKING TO FIND SOLUTIONS TO PROTECT THE PUBLIC.

..... New results from studies show that Covid-19 can spread through surface and air (see both article links to the right).

Added peace of mind can come from an **ENVIRONMENTAL TESTING PROGRAM** creating a regular surface swab protocol and air testing to detect COVID-19 and other harmful contaminants.

AccuScience Laboratories is able to provide testing and delivering results utilizing the reinvented DNA-based testing to identify pathogens faster, easier and accurately in order to drive greater safety and business optimization. We deliver solutions needed to save lives and money-with providing ultra-rapid test results. We utilize state of the art technology and instrumentation and work with premier biotechnology innovators to offer the latest technologies in order to address health and safety measures that work.

- o Advanced laboratory testing combined with best-in-class surface swab collection to detect viral contamination.
- o Easily test businesses, medical and dental facilities, hotels and schools
- o Post both results and testing frequency for guests, visitors and employees.
- o Expedited results
- o Ultra-affordable and accurate pooled testing available for some surface testing to help keep costs down and get quicker results.

AccuScience Accurate.
